## Bachelor of Science (B.S.) in Organizational Leadership

The program of study leading to the Bachelor of Science Organizational Leadership is designed as a degree completion program to prepare students for leadership in the church and the world by way of studies in the classical liberal arts, all interpreted through and integrated into a world and life view formed by biblical truth.

Students in the Bachelor of Science in Organizational Leadership program must complete a *Basileia* (“Kingdom”) Mission (non-credit) for graduation, if they have not done so already in a diploma or associate degree program. Such projects might include missions trips, regular involvement in an approved ministry, internships, or participation in special evangelistic outreach efforts. Guidelines for completing the *Basileia* Mission requirement are available from the Registrar’s Office.

### Program Objectives

The purpose of the B.S. in Leadership is achieved by enabling students to:

1. Understand the components of effective leadership.
2. Demonstrate the ability to effectively lead others in small groups and Christian service projects.
3. Begin practicing the leadership skills needed to advance beyond small-group leadership to leadership at mid-range and strategic levels.
4. Comprehend the dynamics of leadership at different organizational levels and in different environments (secular and religious, public and private sector, etc.)
5. Think critically about how to mitigate problems caused by ineffective leadership at various organizational levels.
